CONGRESS FORECAST

An Exceedingly Lively Week is Promised.

VOTE ON THE CUBAN MEASURE.

The Conference Report Will Undoubtedly Pass the House-The River and Harhor Ilill Will Also he Decided by the House. Appropriation Hills Will He the Leading Subjects Discussed in the Senate.

WASHINGTON, April 6.—This promises to be an exceedingly lively week in the house. The house will first vote on the adoption of the conference report on the Cuban resolutions, which was debated on Friday and Saturday. It is a foregone conclusion that the report will be adopted by an overwhelming vote, but it is probable that there will be more members recorded against it than against the passage of the original resonance.

Immediately afterward an effort will be made to pass the river and harbor bill under suspension of the rules. The bill carries something over \$9,000,000 in actual appropriations, but anthorizes contracts for almost \$40,060,000 additional. The Democrats would like an opportunity to attack the bill because of the enormons charge it makes upon the treasury in the future, and they will treasury in the future, and they will make all the resistance they are able to. Under the rules, however, their opposition is not likely to be effectual, and morever there are many features of the bill in which individual Democrats are vitally interested. When a motion is made to suspend the rules but 30 minutes, debute are allowed on a girle but ntes' debate are allowed on a side, but it is certain an extension of time will be made to two or three honrs.

Following the passage of the rivers and harbors bill, Mr. Pickler, chairman of the invalid pension committee, prebably will call up one of the general bills reported by his committee.

There are also two election eases to be

decided, one of which will unseat Judge Cobb of the Fifth Alabama. By Wednesday it is expected that the fortifications bill will be completed and it probably will occupy the attention of the house for the remainder of the daugerous character.

SENATE FORECAST.

Washington, April 6.—The senate will continue the consideration of the postoffice appropriation bill, and it is hoped that the day will suffice to conclude the debate on this bill. Senator Tuesday on the Pacific railroad refunding question and probably will censume the greater part of the day. The question is one to which the senator has given a great deal of attention and on which he has accumulated a vast amount of infermation. He will speak in support of his resolution outlining a bill and in opposition to the bill under consideration by the joint subcommittee of the two honses.

The remainder of the week will be given up largely to the Indian appropriation bill. This measure contains several features which are certain to develope controversy, the principal one of which is the provision for the discontinuance of the sectarian schools. There also will be an effort in the senate to amend the bill by adding the plan agreed upon by the committee on Indian affairs for changing the system of landholdings in Indian Territory, and this will develop a sharp debate.

The naval appropriation bill wll bereported during the week and will be in condition to be taken up as soon as the Indian bill is out of the way. It is Senutor Peffer's intentiou to call up his anti-bond resolution if opportunity

LONDON, April 6.-John L. Waller, formerly United State consul at Tamatave, island of Madagascar, sailed for New York Suturday. He was released at the instance of the United States government from the French prison in which he had been confined under a sentence of 20 years' imprisonment imposed upon him by a constumstial for having corresponded with the Hovus. His agents are formulating a claim against the French government. For the first time he told his story to a reporter. He said:

"Tamatave was bomburded by the French in December, 1894. I was then living there. Shortly after the bombardment I wrote to my wife, describing the event, referred to the sunitary condition of the town, and the number of French soldiers there, and describing some of the barbarities I witnessed, particularly the assaulting of Hova women by French soldiers.

EX-CONSUL WALLER

"On March 3, 1895, I was arrested at Tamatave. I asked for time to obtain witnesses and to know on what the charges against me were based. I was told that they were, first, for violation of an order of Jan. 18, 1893, regarding sending any letters except through the French port; second, violation of one of the articles of the French military code, by corresponding with the enemy regarding French operations in Tannatave. "I was at first refused counsel, but terms of the present contract, the Prince afterwards obtained the services of M. clude the debate on this bill. My lawyer frequently told the court that such charges as were adduced would be langhed at in a civil ceurt. However, I was condemned to 20 years' solitary confinement.

"On March 23 I was placed on a steamer bound for Marseilles. I was told that I would be given a stateroom for the voyage. However, when I renched the boat I was conducte i to the hold and made to sit down on the platform, which is just underneath the hatch vay for lowering freight. A nage iron bar was placed on the lloor in 110 it of me. To this my mikles were chained. I was then unable to change my position, even enough to lie on my side. The rabble of Tamatave which followed me from the jail to the steamer, standing on the deek, spat down upon me. I appealed to my guards, but they only laughed at me. At night I lay, powerless to move, with the trepical rain beating down upon me. Being wet, in that climate, is ulways followed by fever, nuless ouc's clothes are immediately with rice and eurry in it uml a piece of bread were hamled me. I could not eat, and begged for a enp of tea. One of the soldiers drew his saber and exclaimed Eat that.

"I was only released from my chains twice a day, to minutes in the morning and 10 minutes in the afternoon, and 1 was given but two meals a day. All my effects had been taken away from me, and I was ill-provided with clothing. I had but one and a half franc with me. After leaving Zanzibar, I gave this to a soldier and told him to buy me some oranges. He look the he said he had lost it.

"A few French officers came on board at Zanzibar. One of them remonstrated with my guard, and I was released from my chains. Another officer seeing me released, said: 'You are an enmy to France. MATABELE MASSACRE.

Over One Hundred Whiles Killed During the Recent Uprising.

CAPE TOWN, April 6.—Alarm prevails at Mafeking and the farmer's in the outlying districts are bringing their families into town. They declare that the natives in the cenntry around are preparing to rise on account of the discontent aroused among them by the slaughter of their cattle in the effort to stamp out the destructive Rinder pest. This eattle disease has been creating great havoe among the herds of the Transvaal and Rhedesia has become paralyzed.

Mateking is situated on the northeastern border of Cape Colony, with the Transvaal, adjoining it on the east. It is the point from which Jumeson's raiders set ont fer Jehannesburg. It is also the point from which Sir Hercules Rebinson, governor of Cape Colony, last week dispatched a force of 500 British troops to assist in putting the Matabele nprising. The border of Matabeleland is 340 miles to the northeast and Bulu-

wayo is 450 miles away.

The present outbreak of discontent ean hardly be the result of race sympathy with the Matabele and if it has any connection with the Matabele revolt it must be through the inciting ngent being the same.

Measures have been taken to protect Mafeking. The inhabitants have held a meeting und decided to appeal to the governor, Sir Herenles Robinson, to send troops, the police not being sulli-cient for the protection of Bechuanaland to the north.

It being Easter Sunday, the two smull theaters in the building were entertaining audiences of more than the usual proportions, at least 1,000 persons, who occupied every available space, being present. The audiences at once made a rush for the doors and for u time pandemonium reighed. The stage manager, Charles Bell, took a commanning position and urged the people not to fese their heads and to his coolness and self-possession is due the fact that the patrons smally escaped without

The wildest confusion, however, prevailed among the freaks and stage performers, but all escaped without injury, many of the actors running into the streets with their stage attire. Probably the greatest excitement attending the fire was caused by an meident that happened on the third thoor, where a coffection of huge snakes was on exhibition. Among this collection was a boaconstrictor, 20 feet in length. A female snake charmer had charge of the reptiles and when the fire broke out she attempted to place them in a box.

The snake charmer realizing the man's danger, told him to keep a firm grip on the snake's neck. A terrible struggle then ensued, but by the combined efforts of the fair snake charmer and the obliging stranger, the boaconstrictor was finally jammed into a big box and seemed. The remainder of the nakes were easily rescued. The blaze was a hot one while it lasted, but the lire department soon extinguished it with only nominal damago. The origin of the lire is nuknown.

WASHINGTON, April 4. Charles R. Long, Esq., Chairman Demo-eratle State Central Committee, Louis-

ville, Ky. My DEAR SIR-Your favor of March 30, in which you say, in substance, that many of my friends in Kentucky and elsewhere desire me to become a candidate before the approaching national Democratic convention for nomination of the office of the president and requestlug me to give some anthoritative or definite expresslon" upon the subject, was duly received and has been muturely considered.

Muny communications upon the same subject and of shuilar import have been received from friends in different parts of the country and while very grateful for these unmerous expressions of confidence and esteem upon the part of my Democratle fellow-citizens, I have not been able to reach the conclusion that the existing conditions require me to comply with their requests by nuthorizing them to annonnce me us a candidate for the presidentlal nomination. While I feel a profound interest in the welfare of my party, I mm much more concerned about its declaration of principles than in its selection of candidates, because, in my opinion, lts fuliure or success at the election, as well as its capacity for useful service lu the country in the future, depend upon the position it takes or omits to take the public questions now engaging the attention of the people and especially the questions affecting the monerary system of the country and the character and amount of taxatlon to be imposed upon our citlzens. Its position upon these and other subjects having been agreed upon and clearly and distinctly announced the convention ought to have no difficulty in selecting an acceptable candidate who will fairly represen, its views; and, in order that its defiberations may be embarressed as fittle ns possible by the contentions of rival aspirants and their friends I think my duty to the party will be best performed. by declining to participate in a contest for the nomination.

The obligations assumed when I accepted my present official position require me to devote my entle thme and attention to the public interests committed to my charge, and I shall contline to discharge the duties imposed upon me to the best of my ability and in such manner as will in my judgment most certainly promote the true interests of the country, and if, in the opinion of my fellow Democrats in Kentneky, my services entitle me to their commendation and approval, I would regard their Indorsement of my public course as an ample reward for the lattic I have been able to accomplish in behalf of the present administration and a sound financial policy.

With many truly yours,
I am very truly yours,

PROSPECTS BRIGHTER.

Maysville Will Likely Have a Base Ball Team and a Good One at That.

The Bulletin's article Saturday on the subject of base ball aroused the parties interested in the association, and a meeting was held at the Central Hotel Saturday night to discuss the question of put ting a team in the field this season.

It was decided to at once take steps towards organizing a team, provided the proper encouragement is given by the citizens of Maysville.

If a sufficient subscription in the way of a donation is secured, Maysville will have a team. And it will be a good team, too, as the members of the association can be relied upon to get together only first-class material.

The preliminary work will likely be attended to at once, so there will be no delay in signing some good players.

A team will not only bring many dollars to Maysville, but it will keep lots of money here that would go elsewhere unless we have a club.

A subscription of at least \$100 a month is desired, and this ought to be secured with but little trouble.

Gladness Comes

With a better understanding of the transient nature of the many physieal ills which vanish before proper ef-forts—gentle efforts—pleasant efforts— rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fuet, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the gennine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxa-tives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
